## **About the products**

Would you like to get paid generous customer gathering bonuses of up to £10 and then an ongoing life-time residual income of up to 20% every time one of your customers:

- Orders a toner?
- Uses an Inkjet?
- Uses office supplies?
- Orders cleaning products?
- Uses Medical supplies?

Microsupply products include cheap laser and inkjet toner, a range of office stationery supplies as well as cleaning and medical products. Further products offer guaranteed savings on electronic office supplies.

Microsupply offers customers a very simple (and totally unique) brokerage service which enables virtually every business in the UK to pay reduced rates for all their supplies.

How much can you earn?

Unlike some plans, with Microsupply there are no monthly qualifications required in order to receive an ongoing income, and you can start earning money from day one. Compensation is dependent on the customer gathering and Sales Associate recruitment efforts of you and your down-line team.

In short, a customer gathering bonus of up to £10 will be paid for each new customer gathered, along with an ongoing commission of up to 20% of your personal customers spend (profit). You will also earn an ongoing commission of up to 5% on the products used by customers gathered by your team, as well as potential additional bonuses for every customer gathered.

## **What can be achieved in the longer term?**

Due to the dynamic nature of the Microsupply compensation plan, income potential is virtually limitless. £100 - £250 per month is achievable from month one and very much on a part-time basis. Monthly incomes in excess of £2,000 are common place.

The Microsupply business works and is producing life-changing incomes for many existing executives. This fact cannot be argued. The real question to ask is - what level of income would make a difference to you
